Editorial Information

Title Changes

- To see a full list of 2010 and 2011 title changes:
 - o From the Welcome page, if you select View a group of journals..., Search for a specific journal, or View all journals, the resulting screen will contain a link to Journal Title Changes that are specific to the edition and year of the JCR in which you are working.
 - o In addition, any individual journal record that is affected by a year 2010 or year 2011 title change will contain a title changes link in the Full Journal Record in the Journal Information section. This will note the specific nature of the change as well as the other title/titles involved.

Combined titles

- The titles listed below are published in individually titled sections. The individual sections are listed in Web of Science according to their unique titles. For the purposes of JCR listing, the sections are combined and the parent title is retained with a single Journal Impact Factor that combines item counts and citation data for all sections. The decision to combine sections to a single JCR listing is based on JCR Editors' analysis of citation aggregation effectiveness.
 - J GEOPHYS RES-ATMOS, J GEOPHYS RES-BIOGEO, J GEOPHYS RES-EARTH, J GEOPHYS RES-OCEANS, J GEOPHYS RES-PLANET, J GEOPHYS RES-SOL EA, and J GEOPHYS RES-SPACE are combined to: J GEOPHYS RES
 - TIERAERZTL PRAX G N and TIERAERZTL PRAX K H are combined to TIERAERZTL PRAX
 - o TISSUE ENG PART B-RE, TISSUE ENG PART C-ME and TISSUE ENG PT A are combined to TISSUE ENG

Title Suppressions

Metrics for the titles listed below are not published in the 2012 JCR. Suppressed titles were found to have anomalous citation patterns resulting in a significant distortion of the Journal Impact Factor, so that the rank does not accurately reflect the journal's citation performance in the literature. The Journal Impact Factor provides an important and objective measure of a journal's contribution to scholarly communication, and its distortion by an excessive concentration of citations is a serious matter. JCR staff will monitor these journals going forward and the titles will be included in a future edition of JCR when the problem of citation concentration has been resolved. Coverage of these journals in Web of Science and other Thomson Reuters products is not immediately affected by suppression from the JCR, however, the titles may be subject to review to determine if they continue to meet the quality and publication standards necessary for inclusion in Web of Science.

JCR Title	Full Title
ACTA CHIR ORTHOP TR	Acta Chirurgiae Orthopaedicae et Traumatologiae Cechoslovaca
ACTA GEODYN GEOMATER	Acta Geodynamica et Geomaterialia
