

Primer zahteva korisnika:

Poštovani, moj rad je publikovan u časopisu *Scientific Research and Essays*, 8 September, Vol 6 br 19 i još uvek se ne nalazi u Naši u WoS. Molim da ga dodate na moju listu radova.

Primer pretrage:

Najpre je potrebno u EleČas bazi izvršiti pretraživanje po naslovu časopisa (kako bi se utvrdio tačan naziv po kome se isti referiše u WoS-u):

The screenshot shows the EleČas search interface. At the top, there are tabs for EleČas, EleKnjige, Naši u WOS, Pomoć, and Impresum. Below the tabs are icons for email and phone. The main area is titled "Pretraživanje časopisa". On the left, there's a sidebar with sections for "KoBSON lista" (describing the list of all journals available in electronic or paper form), "Važno" (warning against unauthorized copying), and "Časopisi u papirnoj formi" (link to a separate page). The main search area contains fields for "reči u naslovu časopisa" (title words) with the value "scient res ess", "ISSN" (ISSN number), and "oblast" (subject) with a dropdown menu set to "izaberite oblast". A green "Pretraživanje" button is at the bottom of this section, with a red circle drawn around it to indicate it should be clicked.

Iskopirajte tačan naziv časopisa:

The screenshot shows the search results page for the journal "Scientific Research and Essays". At the top, there are tabs for EleČas, EleKnjige, Naši u WOS, Pomoć, and Impresum, along with email and phone icons. The search query "reči u naslovu časopisa Scientific Research and Essays;" resulted in "1-1 / 1 časopisa". The search results table has columns for ISSN, Naslov (Title), Servisi (Services), IF 2010, and detalji (Details). The first result shows ISSN 1992-2248 and the title "Scientific Research and Essays", which is circled in red. The "Servisi" column shows "OA", the "IF 2010" column shows "0.445", and the "detalji" column has a link.

ISSN	Naslov	Servisi	IF 2010	detalji
1992-2248	Scientific Research and Essays	OA	0.445	

Nakon toga potrebno je izvršiti pretragu po naslovu časopisa u Web of Science servisu (servis birate sa početne KoBSON stranice, iz desnog – narandžastog menija, izborom opcije: *Brza stranica*):

The screenshot shows the Kobson website interface. At the top, there are tabs for EleČas, EleKnjige, Naši u WOS, Pomoć, and Impresum. On the right side, there are icons for user profile (@) and phone. Below these, a sidebar titled 'NOVI KORISNICI' lists various services: Ko ima pravo pristupa, Kome je KoBSON dostupan, KAKO KORISTITI KoBSON, Pretraživanje časopisa, Pretraživanje Naši u WoS, Kako 'od kuće' do KoBSON-a, KoBSON na Facebook-u, KoBSON ZA POČETNIKE, ČESTA PITANJA O:, Dostupnosti KoBSON-a, Naši u WoS, Našim časopisima, Citiranosti autora, SKRAĆENICE NA KoBSONU, DoiSerbia, Scindeks, Google Scholar, and Brza stranica. The 'Brza stranica' option is circled with a yellow oval.

Na novootvorenoj stranici (pri samom dnu), iz odeljka Indeksne baze potrebno je izabrati link *Web of Science* (WoS):

The screenshot shows the 'Indeksne baze' (Index Databases) section. It displays a table with four columns: EV, SC, IN, SF, and PM. The rows contain links to various databases: Engineering Village 2, SCOPUS, INIS, SCIndeks, MEDLINE, SciFinder, and Web of Science. The 'Web of Science' link is circled with a red oval.

EV	SC	IN	SF
Engineering Village 2	SCOPUS	INIS	SCIndeks
			MEDLINE
			SciFinder
			Web of Science

Na WoS stranici, u polju za pretraživanje, iskopirajte naziv časopisa (preuzet iz EleČas servisa):

Nakon dobijanja liste referisanih radova u navedenom časopisu, sa leve strane ekrana, u okviru opcije "Refine Results", potrebno je ograničiti pretraživanje na godinu u kojoj je rad publikovan (npr. 2011) i kliknuti na dugme Refine (na samom vrhu liste rezultata postoji opcija sortiranja radova po kriterijumu prikazivanja Sort by: Publication date: newest to oldest, koja se u praksi pokazala kao nepouzdana, stoga preporučujemo opisanu proceduru selekcije radova – Refine Results):

Na prikazanoj listi radova vidi se koja je poslednja obrađena sveska časopisa u kome je objavljen Vaš rad. Na osnovu tog podatka možete napraviti okvirnu procenu kada će Vaš rad biti referisan i vidljiv u WoS-u (u navedenom primeru vidimo da je članak koji očekujemo da se pojavi publikovan u svesci br. 19, a poslednja referisana sveska časopisa Scientific Research and Essays je sveska br. 3 – razlog ovome je svakako frekvecnija izlaženja samog časopisa – 24 sveske godišnje).
