

## JCR Data Updates

After the initial annual JCR release is published, this section will be updated biweekly with notes about pending additions or adjustments to the JCR data. All changes will be reflected in the JCR application when the dataset is reloaded and closed later in the year. Citation metrics published in this section can be considered official JCR data.

This is unlikely to change, but should be considered provisional until the data are reloaded later in the year.

**Please Note:** A technical problem briefly affected display of the Journal Impact Factor for International Journal of Disaster Risk Science. The correct Journal Impact Factor is now displaying in product. Note that updated category rankings and quartile information for this journal will be included in the September reload of the JCR data along with all other pending updates. Please be aware that rankings will shift accordingly for the Geosciences, Multidisciplinary; Meteorology & Atmospheric Sciences; and Water Resources categories.

	Full title	JCR Abbreviation	Reason for update	Total citations	Journal Impact Factor	5-year Impact Factor	Immediacy Index
1.	Academic Weekly	ACAD MED	Item count	10842	4.194	4.014	1.762
