Kod većine izdavača KoBSON pretplaćuje časopise u punom tekstu od 1997. godine, dok su ranija godišta dostupna do nivoa abstrakta. Predmetna, ili autorska, pretraživanja po člancima, moguće je obaviti:

- (1) na veb stranici izdavača izabranog iz menija, korišćenjem opcije brzo pretraživanje
- (2) na veb stranici izdavača
- (3) na veb stranicama aggregatora (EBSCO, ProQuest)
- (4) indeksne baze (Web of Science, Scopus, Scindeks)

Elektronski časopisi:

Skup pretplaćenih izdavača čiji su naslovi dostupni u formi punog teksta.

- Repozitorijum **55 naslova** domaćih naučnih časopisa sa arhivom punih tekstova od 2002. godine do danas.
- Trenutno broj preko **34.000** članaka opremljenih DOI brojem.

Popust na troškove publikovanja radova u OA časopisima izdavača Brill

Međunarodni konzorcijum EIFL (Electronic Information for Libraries), čiji smo član, je potpisao sporazum sa izdavačkom kućom Brill koji omogućava istraživačima iz Srbije popust u iznosu od 50% na troškove objavljivanja rada (APC) u 314 časopisa ovog izdavača. Sporazum važi **do kraja 2023. godine**. Sistem automatski prepoznae autore iz Srbije na osnovu navedene afilijacije i nije potrebno uputiti nikakav dodatni zahtev nakon što je rad prihvачen za objavu.

Lista časopisa se nalazi na sledećem [linku](#).

Na stranici EIFL-a dostupne su [detaljnije informacije](#) u vezi sa publikovanjem rada.

(objavljeno 21.10.2020.)

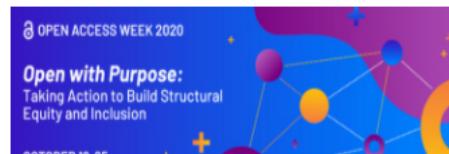

Popust na troškove publikovanja radova u OA časopisima izdavača World Scientific Publishing

Open Access Week 2020

"Open with Purpose: Taking Action to Build Structural Equity and Inclusion" tema je 13. po redu međunarodne nedelje otvorenog pristupa koja će trajati od **19.10. do 25.10.2020. godine**. Iako donatori, univerziteti, izdavači i naučnici daju veliki doprinos otvorenoj nauci, i ovogodišnja tema još više naglašava njenu važnost i svrhu. Kako bi otvoreno postalo podrazumevano neophodno je kritičko i aktivno angažovanje institucija. Organizator ove manifestacije je **SPARC** (The Scholarly Publishing and Academic Resources Coalition) - globalna koalicija posvećena otvarjanju podrazumevane vrednosti za istraživanje i obrazovanje.

Više informacija nalazi se na zvaničnom sajtu manifestacije www.openaccessweek.org, dok na portalu [OpenAIRE](#) možete pronaći listu organizovanih vebinara zakazanih za celu nedelju.

DIGITALNI REPOZITORIJUM NARODNE

Šta je KoBSON?

- Konzorcijum biblioteka Srbije za objedinjenu nabavku
 - veb adresa: <https://kobson.nb.rs>
 - Osnovni cilj:
 - optimizovana nabavka stranih naučnih informacija
 - prelazak sa papirnih izdanja na elektronska
 - unapređenje pristupa elektronskim informacijama
 - promocija domaćeg naučnog izdavaštva
- 

Čime se sve bavimo?

- ispitujemo potrebe
 - pregovaramo sa izdavačima
 - pišemo predloge nabavki
 - borimo se za budžet
 - osmišljavamo veb stranicu
 - otvaramo naloge za udaljeni pristup
 - odgovaramo na e-mailove i komentare
 - održavamo Naši u WoS
 - održavamo DoiSerbia
- 

KoBSON se koristi za:

- pretraživanje časopisa (i knjiga)
 - uvid u podatke namenjene vrednovanje
 - promociju naučnog publikovanja u Srbiji
 - novine u naučnom izdavaštvu
-

U 2016. godini, iz akademskih institucija u Srbiji, dostupno je preko 35.000 naslova stranih naučnih časopisa u punom tekstu, blizu 160.000 naslova knjiga, kao i nekoliko indeksnih baza podataka. Pretraživanje na KoBSON portalu moguće je obaviti samo prema naslovu časopisa ili knjige. Većina časopisa je u punom tekstu dostupna od 1997. godine, dok su ranija godišta dostupna do nivoa abstrakta. Za predmetna pretraživanja po člancima upućujemo Vas ili na nekog od aggregatora, ili direktno na sajt izdavača.

Pretraživanje časopisa: Spisak svih časopisa koji su na neki način dostupni u bibliotekama Srbije (bilo elektronski, bilo u papirnoj formi), proširena naslovima časopisa koji su imali Impakt Faktor u poslednjih dvadeset godina. Prisustvo časopisa na toj listi je samo pokazatelj njegove dostupnosti, a nikako kvaliteti.

Objedinjena pretraga svih servisa: Pretraga se vrši preko servisa EBSCO Discovery, u okviru forme za pretragu na početnoj stranici KoBSON sajta, kao i odabirom opcije EBSCO Discovery Service na EBSCO platformi.

Elektronski časopisi: Skup pretplaćenih izdavača čiji su naslovi dostupni u formi punog teksta.

THE IRON AGE URNFIELD TRADITION OF SOUTHWESTERN JUTLAND, DENMARK

NIELS ALGREEN MOLLER, LISE LOCK HARVIG & BENTE GRUNDVAD

ABSTRACT

This study examines two urnfields, their development, burial rituals, grave goods and the cremated remains in a renewed analysis of the Danish Urnfield Tradition. The osteological investigation reveals a very high proportion of children's graves in these communal burial sites. Individual expression and demonstration of status are muted in burial rituals adhering to strict norms, although differences between age categories show through variations in the size of a burial monument. The use of CT scans and a detailed analysis of all artefacts provide evidence of the ritualized breaking of urns and the retrieval of bones from graves. Such retrieval of bones together with the layout and development of urnfields demonstrate the importance

Siemen 2015), but the in-depth scrutiny of the Urnfield Tradition has not been undertaken until now.

When a large number of recovered but unexcavated urns from the Iron Age urnfield of Sohale was discovered in the storage facilities of the Museums of Southwest Jutland, we seized the opportunity to use these and the materials from the nearby site at Veldbæk (note 1) as a starting point for a renewed examination of the Danish Urnfield Tradition.

So far, many questions on the burial traditions remain unanswered, and the knowledge of Danish urnfields relies heavily on information from a few large sites. There have been no comprehensive osteological studies of bone assemblages from the urnfields, no studies of the topo-

NOW ACCEPTED TO THE SOCIAL SCIENCE CITATION INDEX

African Archaeological Review publishes articles on African archaeology, highlighting the contributions of the region as they relate to key global issues. Important topics include the emergence of modern humans, earliest manifestations of human culture, and the origins of African plant and animal domesticates. — [show all](#)

Abstract

We analyzed the ceramic assemblage from a re-excavated section of Tse Dura rockshelter (KA4RS1) in central Nigeria's Ushongo area to understand the archaeological sequence of human occupation and cultural changes. The analysis, focusing on motifs, forms, and petrography, identifies three phases of human occupation. The petrographic results, in particular, revealed three main fabric groups—TD-AC1, TD-AC2, and TD-AC3—all of which contain inclusions that are indicative of clay sources local to the Tse Dura rockshelter region. The first two groups, TD-AC1 and TD-AC2, contain similar inclusions; however, the third group, TD-AC3, exhibited slight variability. The variations in fabrics and inclusions are most probably related to the potters' choice of different techniques and unique raw materials for specific vessels.

Ceramic Analysis

The recovered potsherds were initially classified based on their motifs (Tables 2 and 3), according to descriptions in the literature (Andah 1983; Haour et al. 2010; Igirgi 1986). Rim morphology and a diameter chart were used in the description of the vessels (Fig. 5). The sizes of the vessels were inferred from the rim diameter. All the 407 rimsherd were analyzed for their morphological attributes based on lip shape/ morphology, thickness, color, and fabric (clay matrix and inclusions).

Publication Details For "African Archaeological Review"

Title: African Archaeological Review

ISSN: 0263-0338

Publisher Information: Springer Nature
Germany

Bibliographic Records: 12/01/1997 to present

Embargo Type: Article embargo. This is an amount of time that full text is restricted from EBSCO products after an article is published on its native platform. After that time elapses, EBSCO will add the full text for the citation record.

Full Text: 12/01/1997 to present (with a 12 Month delay)

*Full text delay due to publisher restrictions ("embargo")

Publication Type: Academic Journal

Subjects: Africa; Archaeology

Description: Covers the archaeology of Africa and neighboring islands.

U 16. godini, iz akademskih institucija u Srbiji, dostupno je preko 35.000 naslova stranih naučnih časopisa u punom tekstu, blizu 160.000 naslova knjiga, kao i nekoliko indeksnih baza podataka. Pretraživanje na Kobson portalu moguće je obaviti samo prema naslovu časopisa ili knjige. Većina časopisa je u punom tekstu dostupna od 1997. godine, dok su ranija godišta dostupna do nivoa abstracta. Za predmetna pretraživanja po člancima upišujemo Vas ili na nekom od agregatora, ili direktno na sajt izdavača.

Pretraživanje časopisa: Spisak svih časopisa koji su na neki način dostupni u bibliotekama Srbije (bilo elektronski, bilo u papirnoj formi), proširena naslovima časopisa koji su imali Impact faktor u poslednjih dvadeset godina. Prisustvo časopisa na toj listi je samo pokazatelj njegove dostupnosti, a nikako kvaliteta.

Objedinjena pretraživanje svih servisa: Pretraga se vrši preko servisa EBSCO Discovery, u okviru forme za pretragu na početnoj stranici Kobson sajta, kao i odabir opcijske EBSCO Discovery Service na EBSCO platformi.

Elektronski časopisi: Skup pretplaćenih izdavača čiji su naslovi dostupni u formi punog teksta.

Popust na troškove publikovanja radova u OA časopisima izdavača Brill

Međunarodni konzorcijum EIFL (Electronic Information for Libraries), čiji smo član, je potpisao sporazum sa izdavačkim kućom Brill koji omogućava istraživačima iz Srbije popust u iznosu od 50% na troškove objavljuvanja rada (APC) u 314 časopisa ovog izdavača. Sporazum važi do kraja 2023. godine. Sistem automatski prepozna autore iz Srbije na osnovu navedene afilijacije i nije potrebno uputiti nikakvi dodatni zahtev nakon što je rad prihvaten za objavu.

Lista časopisa se nalazi na sledećem linku.
Na stranici elFL-a dostupne su detaljnije informacije u vezi sa publikovanjem rada.

(objavljeno 21.10.2020.)

Open Access Week 2020

"Open with Purpose: Taking Action to Build Structural Equity and Inclusion" tema je 13. po redu međunarodne nedelje otvorenog pristupa koja će trajati od 19.10. do 25.10.2020. godine. Iako donatori, univerziteti, izdavači i naučnici daju veliki doprinos otvorenom pristupu, ovogodišnja tema još više naglašava njenu važnost i svrhu. Kako bi otvoreno postalo podrazumevano neophodno je kritičko i aktivno angažovanje institucija. Organizator ove manifestacije je SPARC (The Scholarly Publishing and Academic Resources Coalition) - globalna koalicija posvećena otvaranju podrazumevane vrednosti za istraživanje i obrazovanje.

Više informacija nalazi se na zvaničnom sajtu manifestacije www.openaccessweek.org, dok na portalu OpenAIRE možete pronaći listu organizovanih vebinara zakazanih za celu nedelju.

Popust na troškove publikovanja radova u OA časopisima izdavača World Scientific Publishing

Međunarodni konzorcijum EIFL (Electronic Information for Libraries), čiji smo član, je potpisao sporazum sa izdavačkom kućom World Scientific Publishing koji omogućava istraživačima iz Srbije popust u iznosu od 50% na troškove objavljuvanja rada (APC) u 111 časopisa ovog izdavača (110 hybrid OA i jedan Gold OA). Sporazum važi do kraja 2022. godine i važi da je autor, nakon što je njegov rad prihviten, napomenuti da je upunjavan na popust. Za sve neodumice i pomoć mogu se obrati na sledeću email adresu: openaccess@wspco.com.

Lista časopisa se nalazi na sledećem linku.

Još jedan časopis iz Srbije referisan u bazi Scopus

Domaći časopis Applied Engineering Letters ISSN 2466-4677 počeo je da se referiše u bazi Scopus izdavača

BRZA STRANICA

Bulovi operatori

| | |
|---------|---|
| AND | Finds documents containing all of the specified words or phrases. Peanut AND butter finds documents with both the word peanut and the word butter. |
| OR | Finds documents containing at least one of the specified words or phrases. Peanut OR butter finds documents containing either peanut or butter. The found documents could contain both items, but not necessarily. |
| AND NOT | Excludes documents containing the specified word or phrase. Peanut AND NOT butter finds documents with peanut but not containing butter. NOT must be used with another operator, like AND. |
| NEAR | Finds documents containing both specified words or phrases within 10 words of each other. Peanut NEAR butter would find documents with peanut butter, but probably not any other kind of butter. |
| * | The asterisk is a wildcard; any letters can take the place of the asterisk. Bass* would find documents with bass, basset and bassinet. You must type at least three letters before the *. You can also place the * in the middle of a word. This is useful when you're unsure about spelling. Colo*r would find documents that contain color and colour. |

eBook Academic Collection (EBSCOhost)

This growing subscription package contains a large selection of multidisciplinary eBook titles representing a broad range of academic subject matter, and is a strong complement for any academic collection. The breadth of information available through this package ensures that users will have access to information relevant to their research needs.

[More Information](#)

Academic Search Premier

This multi-disciplinary database provides full text for more than 4,600 journals, including full text for nearly 3,900 peer-reviewed titles. PDF backfiles to 1975 or further are available for well over one hundred journals, and searchable cited references are provided for more than 1,000 titles.

[Title List](#) [More Information](#)

CAB Abstracts 1990-Present

CAB Abstracts (1990 to Present) covers the significant research and development literature in fields of agriculture, forestry, aspects of human health, human nutrition, animal health, as well as the management and conservation of natural resources. This database offers abstracts and indexing for journals, serial publications, conference proceedings, books, theses, annual reports, patents & standards and dates back to 1990. Coverage is international in scope.

Screenshot of the EBSCOhost search interface showing results for "stone age".

The search bar at the top contains the query "stone age". Below the search bar, the results summary "Search Results: 1 - 30 of 2,394" is displayed. The results are organized into sections:

- 1. Age and growth of stone scorpionfish (Scorpaena mystes) from the Gulf of California in Mexico.**

By: Jakes-Cota, Ulianov; Tripp-Valdez, Arturo; Arce-Acosta, Marisol; Omar López-Fuerte, Francisco. *Fishery Bulletin*. 2020, Vol. 118 Issue 4, p324-328. 5p. DOI: 10.1080/00251267.2020.1732742. The stone scorpionfish (*Scorpaena mystes*) is common throughout the Gulf of California in Mexico. Because little information is available regarding the basic biology of this species, this study provides data on its growth and reproduction. The study found that female stone scorpionfish reach sexual maturity at approximately 3 years old and have a gestation period of about 9 months. The study also found that the stone scorpionfish has a relatively low fecundity, with each female producing an average of 1,500 eggs per year. The study concluded that the stone scorpionfish is an important component of the marine ecosystem in the Gulf of California.

Discussion and Conclusion

American Accent Listen ▶️

Located within the Nakuru-Naivasha basin on the northern slope of Mt. Eburru, the open-air site of Prospect Farm (Central Rift, Kenya) is one of the few East African sites that have yielded a stratigraphic sequence containing archaeological levels dating from the late Middle Pleistocene to the Holocene. Excavations at the site by Barbara Whitehead Anthony and Glynn Isaac in 1963–1964 exposed Pastoral Neolithic (Stone Bowl culture) and Later Stone Age (LSA; Kenya Capsian) levels overlying four Middle Stone Age (MSA) levels attributed to the Prospect Industry, a local expression of the Kenya Stillbay. This paper integrates the information currently available for the site and discusses its relevance in a wider East African context. Furthermore, it presents the results of a density survey completed in 2014, mapping the spatial distribution of artifacts along the northern slope of Mt. Eburru and providing data on the landscape setting of the site. The survey identified marked differences in the distribution of diagnostic MSA vs. LSA artifacts: whereas MSA finds cluster at two particular mid-altitude locations (2,102–2,108 m and 2,138–2,140 m a.s.l.) corresponding to the position of Anthony's Localities I and II, LSA finds tend to show a much broader spatial distribution including both higher and lower altitudes.

Résumé: Situé dans le bassin de Nakuru-Naivasha sur la pente nord du Mont Eburru, le site de plein air de Prospect Farm (Rift Central, Kenya) est un des rares sites d'Afrique de l'Est qui a fourni une séquence stratigraphique contenant plusieurs niveaux archéologiques datant de la fin du Pléistocène Moyen jusqu'à l'Holocène. Les fouilles de Barbara Whitehead Anthony et Glynn Isaac en 1963–1964 ont exposé des niveaux du Néolithique pastoral et du Paléolithique supérieur (Later Stone Age [LSA]; Capsien du Kenya) au-dessus de quatre niveaux du Paléolithique moyen (Middle Stone Age [MSA]) attribués à la « Prospect Industry ». Celle-ci représente une expression locale du Kenya Stillbay. Cet article intègre les informations disponibles sur le site et discute son importance dans un contexte géographique plus large. Une prospection de densité a été menée en 2014, afin d'étudier la distribution spatiale des artefacts le long de la pente nord du Mont Eburru. Cette prospection, dont les résultats sont présentés ici, a identifié des différences significatives entre la distribution des artefacts diagnostiques du MSA et ceux du LSA: Alors que les artefacts du MSA sont concentrés sur deux zones à une altitude moyenne (2102–2108 m et 2138–2140 m a.s.l.) qui correspondent à la position des fouilles d'Anthony, les artefacts du LSA présentent une dispersion spatiale plus large qui inclut aussi les altitudes plus hautes et plus basses.

Keywords: Middle Stone Age (MSA); Later Stone Age (LSA); Middle Pleistocene; Upper Pleistocene; East Africa; Human evolution

Archaeological time period: Middle Stone Age (MSA), Later Stone Age (LSA), Pastoral Neolithic

Introduction
Eastern Africa has been a significant area for understanding the process of human evolution, including the emergence and subsequent dispersals of *Homo sapiens* during the late Middle and Upper Pleistocene. The material produced by these prehistoric populations, especially the lithic record, is our primary source of information for studying behavioral variation and change through time. In a first attempt to understand this behavioral change, a chrono-cultural sequence based on the classification of stone tools was put forward for Kenyan and, by extension, eastern African prehistory by Louis Leakey during the first half of the twentieth century (Leakey 1941). Drawing mainly on extensive excavations in Europe and South Africa, he identified a succession of Stone Age cultures and described their relation to

Abstract

The present use wear and residue analysis aims at identifying hafting practices during the Middle Stone Age at Ifri n'Ammar to improve insight in assembly variability through time. Particular attention was devoted to the characteristics of the tanged and non-tanged tools to determine whether these morphological varieties were linked with different prehensile modes.

The functional evidence suggests that the process of hafting seemed to be embedded in the technical system, and was not restricted to specific tool morphologies, or tool functions, but concerned a variety of tool types and functions, which is particularly relevant for a better comprehension of the Aterian. Moreover, the detailed analysis of hafting traces identified the integration of animal materials within the process of stone tool hafting as a key factor for changes in stone tool morphologies during the Aterian.

Pretraživanje elektronskih knjiga

The screenshot shows a search interface for electronic books. On the left, there are search fields for 'Reči u naslovu knjige' (Words in the book title), 'Autor(i)' (Author), 'ISBN', and 'Servis' (Service). Below these is a dropdown menu set to '- svi servisi -'. A green button labeled 'Pretraživanje' (Search) is located at the bottom left of the search area. To the right, a large dark box contains the text: 'UPUTSTVO' (INSTRUCTIONS) in large orange letters. Below it, in white text, is: 'Nije moguće preuzimanje kompletнog sadržaja knjige. U zavisnosti od servisa, može se preuzeti trećina teksta ili samo određeno poglavlje (u vidu jednog PDF-a ili svaka stranica u zasebnom PDF fajlu).' (It is not possible to download the complete content of the book. Depending on the service, only one-third of the text or a specific chapter (in the form of one PDF or each page in a separate PDF file) can be downloaded.)

Svet istraživanja u jednoj aplikaciji

Platforma Researcher nastala je 2017. godine sa ciljem da pomogne istraživačima da ostanu u toku u svetu naučnih informacija. U okviru platforme postoji mogućnost pretrage relevantnih naučnih radova iz različitih oblasti. Pored pretrage literature, kreiranjem svog ličnog naloga autori mogu pronaći i časopis za objavu rada uz pomoć opcije "Journal Finder - Find the Right Home for Your Paper".

Pored web verzije, Researcher je dostupan i za preuzimanje, bez naknade, u vidu aplikacije za pametne

Problem slanja mejlova na yahoo, hotmail i gmail domene

Zbog čestih napada na mejl server Narodne biblioteke Srbije izvestan broj mejl servera nas je stavio na "blok" liste. Usled toga, naši mejlovi upućeni korisnicima sa navedenim nalozima, bivaju isporučeni u "Spam" foldere. Stoga preporučujemo svima koji su nam uputili mejlove sa navedenih domena da provere svoje Spam/Junk foldere u mejl sandučićima i ukoliko je naš mejl tamo otisao treba ga označiti kao "not spam".

*Chapter 5:
'Creativity', 'Contemporary'
and 'Integration'*

Creativity

To engage in a discussion of creativity with colleagues in music education is to embark on a slippery road indeed. Notions of self-expression, self-fulfilment, self-awareness; insistence on the necessity of being creative in today's society; suggestions that creative activities are the royal road to really understanding music; all these and many other claims are made for creativity. It is a fairly vague word. It is also an *approval* word. It is thought to be good to be creative or to promote creative activities, not so good to be non-creative, merely a performer or receiver of other people's creations. The issue is made all the more confusing by the use of the term 're-creative' to describe how

O servisu

EBSCO eBook Academic Collection obuhvata preko 150.000 naslova iz svih oblasti. Pretraga kolekcije može se izršiti na nekoliko načina: osnovna pretraga preko polja za pretragu, napredna pretraga na osnovu imena autora, naslova, jezika i slično, i na osnovu kategorije, odnosno predmeta. Omogućen je pregled teksta po poglavljima, preuzimanje teksta, automatsko citiranje i izbor stila citiranja (MLA, APA i dr.), pregled sadržaja i relevantne stranice iz e-knjige.

Preporučuje se otvaranje ličnog naloga (*Create a new Account*) koji pruža niz pogodnosti: pravljenje sopstvene "police" knjiga (*My EBSCOhost Folder*), pamćenje obeleženog teksta i unetih komentara, obeležavanje određene stranice i slanje elektronskom poštom, štampanje i čuvanje stranice u različitim formatima. Prilikom otvaranja naloga neophodno je prijaviti komercijalnu e-mail adresu (gmail, yahoo, hotmail...).

Preko ličnog naloga e-knjige se mogu preuzeti na određeni period (Download Offline), ali je potrebno da se instalira program Adobe Digital ([kratce uputstvo za preuzimanje knjiga](#))

Možda Vam zatreba - Alert

The screenshot shows the KoBSON website's header and a specific page. The header includes the KoBSON logo, navigation links for INFORMACIJE, NAUKA U SRBIJI, SERVISI, MOŽDA VAM ZATREBA (which is highlighted with an orange oval), and SUGESTIJE I ZAMERKE. Below the header, there are links for Google alati, Razrešavanje, Čemu služi (also highlighted with an orange oval), NAUKA U SRBIJI, SERVISI, MOŽDA VAM ZATREBA, SUGESTIJE I ZAMERKE, Intelektualna prava, Creative Commons (CC), Deep Web Technologies, Vrednovanje, Open Access, and Predatorski časopisi. The main content area shows a breadcrumb trail: Početak / MOŽDA VAM ZATREBA / Čemu služi, followed by a section titled "Alert" (also highlighted with an orange oval). This section contains text about the use of the Alert service, instructions for creating an account, and information about different types of alerts. To the right, there is a sidebar titled "Korisni linkovi" with links to Novi korisnici, Kako koristiti KoBSON, Korisni linkovi, and Skraćenice na KoBSONu.

Korišćenje Alert opcije

Izdavači naučnih baza podataka pružaju registrovanom korisniku mogućnost korišćenja *Alert* servisa. Ta opcija Vam omogućava da sačuvate korišćene upite kako biste ih kasnije ponovo izvršavali. Osim toga, možete ih koristiti kao zahtev za periodično slanje izveštaja o novododataim člancima koji odgovaraju tim upitima.

Da biste koristili ovu pogodnost neophodno je da korisnik otvori svoj lični nalog (registruje se) na svakom servisu pojedinačno. Te registracije su besplatne i međusobno nezavisne i nemaju nikakve veze sa KoBSON nalogom.

Postoji nekoliko tipova Alerts obaveštenja:

1. *Search Alerts* – obaveštenja vezana za pretrage. Ako korisnik odluči da sačuva određenu formu i sadržinu pretrage (npr. konkretnu konfiguraciju ključnih reči i imena autora po kojima je pretraživao bazu, slika ispod), ima mogućnost da putem Alerts aplikacije konfiguraciju konkretnе pretrage sačuva, a da mu servis automatski šalje obaveštenje na e-mail adresu kada god se u bazi pojavi neki novi članak koji odgovara kriterijumima pretrage.
2. *Volume/Issue Alerts* – obaveštenja vezana za nove brojeve i sveske časopisa. Korisnik može da izabere časopise za koje želi da dobija obaveštenja kada god izađe nova sveska časopisa, naravno pod uslovom da se taj časopis referiše u bazi.
3. *Citation Alerts* – obaveštenja vezana za citiranje izabranih članaka. Korisnik može da traži da mu se za određene članke šalju obaveštenja kada god se u bazi pojavi neki novi rad koji citira izabrani članak.

SKRAĆENICE NA KoBSONu

Možda Vam zatreba - RSS

The screenshot shows the KobSON website interface. At the top, there is a navigation bar with links: Google alati, Razrešavanje, INFORMACIJE (with 'Čemu služi' highlighted by a red oval), NAUKA U SRBIJI, SERVISI, MOŽDA VAM ZATREBA (highlighted by a red oval), and SUGESTIJE i ZAMERKE. Below the navigation bar, there are two rows of links: 'Intelektualna prava' and 'Creative Commons (CC)' in the first row, and 'Deep Web Technologies' in the second row. A horizontal menu below these rows includes links: EleČas >, EleKnjige >, Naši u WOS >, Brza stranica >, Pomoć >, Čemu služi, Impresum >, and Pratite nas: with social media icons. The main content area has a breadcrumb trail: Početak / MOŽDA VAM ZATREBA / Čemu služi. The title 'RSS' is highlighted with a red oval. The page content discusses what RSS is, how it works, and provides instructions for using it. It also mentions that RSS can be used to automatically download data from the Internet. The right sidebar contains sections for 'Korisni linkovi', 'NOVI KORISNICI', 'KAKO KORISTITI KoBSON', 'KoBSON ZA POČETNIKE', 'ČESTA PITANJA O:', and 'SKRAĆENICE NA KoBSONU'.

Šta je RSS?

RSS (Really Simple Syndication) predstavlja aplikaciju za automatsko preuzimanje podataka sa internet sajtova. Uz pomoć RSS aplikacija moguće je pratiti promene na web lokaciji od interesa bez posećivanja samog sajta. RSS automatski preuzima podatke o promenama na sajtu i obaveštava korisnika o njima. Ako se na sajtu pojavi neka nova vest, tekst ili neki drugi sadržaj, korisnik dobija informaciju o tome.

Postoje dva preduslova da bi RSS funkcionisao:

1. Da web sajt ima RSS aplikaciju, tj. da je moguće preuzimati informacije na ovaj način sa njega.
2. Da korisnik ima aplikacije za čitanje RSS-a, kao i da određenu web lokaciju unese u listu sajtova za RSS informacije.

Ove aplikacije se mogu besplatno preuzeti sa Interneta.

Za istraživača koji želi da prati određene naučne časopise u elektronskoj formi (npr. preko KOBSON-a), RSS predstavlja odlično rešenje, jer se sve promene, tj. pojavljivanje novog broja i novih tekstova, automatski detektuju i informacija stiže direktno korisniku, štedeći na taj način njegovo vreme.

1. Middle and Later Stone Age chronology of Kisese II rockshelter (UNESCO World Heritage Kondoa Rock-Art Sites), Tanzania.

By: Tryon, Christian A.; Lewis, Jason E.; Ranhorn, Kathryn L.; Kwekason, Amandus; Alex, Bridget; Laird, Myra F.; Marean, Curtis W.; Niespolo, Elizabeth; Nivens, Joelle; Mabulla, Audax Z. P. PLoS ONE. 2/28/2018, Vol. 13 Issue 2, p1-24. 24p. DOI: 10.1371/journal.pone.0192029. Database: Food Science Source

The archaeology of East Africa during the last ~65,000 years plays a central role in debates about the origins and dispersal of modern humans, Homo sapiens. Despite the historical importance of t...

BIBLIOTEKE SRBIJE

Indeksne baze

- “Danas se bibliografske i citatne baze podataka upotrebljavaju na različite načine, od prostog pretraživanja literature, do provere citiranosti, kao i za vrednovanje naučnika, istraživačkih grupa, pa čak i čitavih univerziteta. Najpoznatiji primeri su dve komercijalne baze podataka, tj. Web of Knowledge i Scopus, kao i besplatni servis Google Scholar.“ ¹

¹ <http://nauka.cpn.rs/>

Indeksne baze

- “Baza podataka Web of Science omogućava pristup do šest citatnih baza podataka, kao i pretragu i analizu citatnih i bibliografskih podataka iz oko 13.000 časopisa i preko 15.000 zbornika sa konferencija.
- Bazu podataka SciVerse Scopus aktivirao je 2004. godine Elzevir (Elsevier, jedan od vodećih izdavača iz oblasti prirodnih nauka, tehnologije i medicine).”¹

Svet istraživanja u jednoj aplikaciji

Platorma Researcher nastala je 2017. godine sa ciljem da pomogne istraživačima da ostanu u toku u svetu naučnih informacija. U okviru platforme postoji mogućnost pretrage relevantnih naučnih radova iz različitih oblasti. Pored pretrage literature, kreiranjem svog ličnog naloga autori mogu pronaći i časopis za objavu rada uz pomoć opcije "Journal Finder - Find the Right Home for Your Paper".

Pored web verzije, Researcher je dostupan i za preuzimanje, bez naknade, u vidu aplikacije za pametne uređaje, kako za Android, tako i za iOS. Researcher takođe nudi besplatni dodatak za pregledače za pronalaženje literature. Omogućeno je i povezivanje sa referensnim menadžerima Zotero i Mendeley.

Takođe je korisni pratiti i njihov blog na kome se redovno objavljuju novine u vezi aplikacije, ali i novine iz sveta istraživanja. Često organizuju i zanimljive vebinare.

Detalji su dostupni na [zvaničnoj stranici](#) i u okviru video materijala:

(objavljeno 26.02.2021.)

Problem slanja imejlova na yahoo, hotmail i gmail domene

Zbog čestih napada na imej server Narodne biblioteke Srbije izvestan broj imej servera nas je stavio na "blok" liste. Usled toga, naši imejlovi upućeni korisnicima sa navedenim nalozima, bivaju isporučeni u "Spam" folderu. Stoga preporučujemo svima koji su nam uputili imejlove sa navedenih domena da provere svoje Spam/Junk folder u imej sandučićima i ukoliko je našimej tamo otisao treba ga označiti kao "not spam".

Izvinjavamo se zbog nastalog tehničkog problema i dok se saniranje problema ne realizuje unapred vam se zahvaljujemo na razumevanju.

(objavljeno 26.02.2021.)

Besplatno publikovanje radova u OA časopisima izdavača Cambridge University Press

U dogovoru sa izdavačkom kućom Cambridge University Press sada se istraživačima iz Srbije pruža mogućnost publikovanja radova bez troškova (APC) u časopisima u otvorenom pristupu (Gold Open Access i Hybrid Open Access).

Kako ostvariti APC popust:
Autori koji ispunjavaju uslove za besplatno/za popustom publikovanje u OA časopisima Cambridge izdavač će nakon što su popunili obrazac za publikovanje rada dobiti email od RightsLink-CCC kompanije, koja u ime Cambridge-a naplaćuje APC naknadu. Svi autori moraju da prodru kroz ovaj postupak. Autori iz zemalja koje

Naši u WoS
